DISCOVERY Workshop on EU-North America collaboration in ICT R&I

JULY 8, 2016

What is it about?

WORKING CAPACITY WORKSHOP

This capacity-building workshop is part of the DISCOVERY cycle of workshops to explore and share opportunities for EU-North America collaboration in ICT R&I under EU H2020, Canada and US Programmes. The event is being held just after SAVI Annual General Meeting on 6-7 July and it is geared to funding agencies, researchers and industry leaders interested in ICT R&I collaborative projects with Europe. The workshops will showcase practical knowledge and successful examples of collaboration between North America and EU in the field of ICT, and it will combine panel discussions with project ideas generation.
